

warning not visible to user (out of hero section)

add new card option not there

should be blocked to insert infinite string in the col itself

month and year of what?(expiry?)
month and year should be in numbers

warning is complex to understand for a user
the string warning should be integrated with column itself

remove card option not given

new card option not given

add plan colors error

every 6 month? Or per 6 month?

is it a auto debit then it should be every month and every year is card

changing between plans create orders

as switching between orders/membership and payment card the section not highlighted in sidebar

total spent not showing in students
no data is been shown

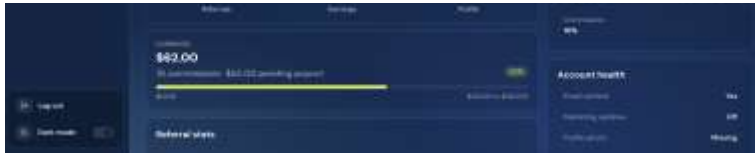

where as its shown in user profile

new student created but not updated in affiliate under admin

view all button is redirecting to referrals

the percentage changed from previous

admin

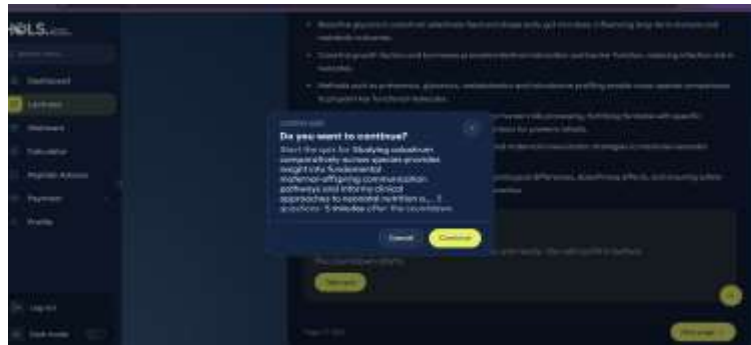

If the plan is already on max level then why upgrade option

more than one upgrade plan button

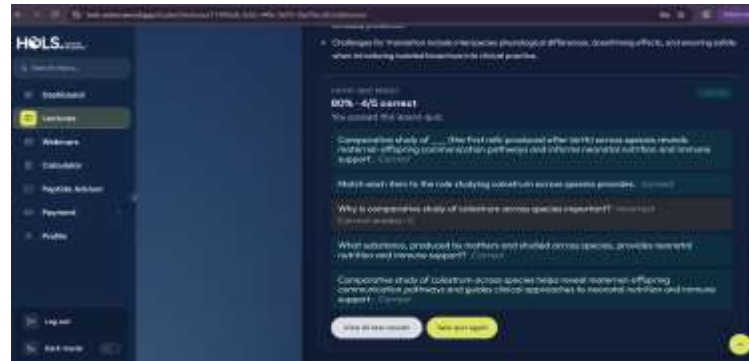

orders are not reflecting on admin dashboard

search error there while entering any alphabet ,other than that alphabet lectures come

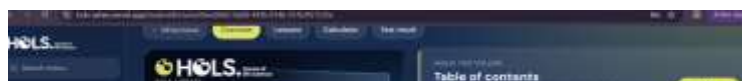

too much cluttered

correct answer is chosen but still showing error

same above error in lesson 2

if one string also missing from answer its coming as incorrect such as stages=stage

image text overlap

webinar can be created to old date
without url its being able to create
seat capacity was entered as 0 still its showing 100

both bottle should be of same size
dark mode ui visibility issue

affiliate has been directly added without any confirmation from affiliate side
